

Public events

Consortium partners have attended to 9 events throughout the first 12 months. The project was showcased through presentations, posters and discussions with an estimated audience of 1250 people. Public (scientific conferences, symposiums) and outreach events have demonstrated to be a very effective method to raise awareness of the project.

Project events

Throughout the first year, several meetings were made. Relationships between the partners were strengthened and cross-disciplinary bridges between sociologists, psychologists, philosophers and professionals from informatics and communication were established.
